

## ICH GCP Training for Site Staff

**Practical information:** Number of participants: Between 5 and 10  
Duration: ½ day  
Price per person @ Valesta office: £450

### Course Overview

It is essential for all personnel involved in clinical studies to have excellent knowledge of Good Clinical Practice (GCP) guidelines. The International Conference on Harmonisation (ICH) Good Clinical Practice is the internationally recognised ethical and scientific standard for the design, conduct, performance, monitoring, auditing, recording, analysis and reporting of results in clinical trials. By following the ICH GCP guidelines, it provides assurance that the data and reported results are credible and accurate and that the rights, integrity and confidentiality of trial subjects are protected.

This training module introduces the clinical trials process and covers the key GCP requirements and responsibilities for investigators and investigational site staff. The training provides an essential foundation for anyone involved or wanting to be involved in clinical research.

Our ICH GCP Training for Site Staff meets all of the minimum criteria for TransCelerate BioPharma ICH E6 (R2) GCP Investigator Site Personnel Training.

### By attending this course you will gain:

A comprehensive knowledge of the ICH GCP guidelines through theory based learning providing you with an:

- Understanding of the ICH GCP requirements
- Overview of the different phases in clinical trials
- Overview of required material to start a clinical trial
- Understanding of the responsibilities and tasks of site staff in a clinical trial

**Topics that are being covered during this training are:**

- Drug development cycle
- What is Good Clinical Practice?
- Main players involved in a Clinical trial
- 13 Principles of ICH GCP
- Detailed look into the Investigator Responsibilities
- Insights in good documentation practices for clinical research

This interactive half day training will provide comprehensive Good Clinical Practice information to people new to clinical trials with real life examples used to illustrate the different requirements. Upon completion, participants will be provided with ICH GCP certification.
